

REMARKS

This paper is submitted in response to the Notice of Drawing Inconsistency with Specification of September 5, 2006 ("the Notice"). The Notice states that Figure 4 is listed in the Brief Description of the Drawings, but that Figure 4 is absent from the drawings. For the Examiner's reference, a copy of the Notice is included with this paper.

Applicant notes that the specification has been amended to refer to Figures 4A-D. Support for this amendment can be found in the specification at, for example, pages 6-7, and in Figures 4A-D as originally filed. The specification has also been amended to correct an obvious typographical error. Applicant submits that the reference to Figure 4 at page 6 is a general description intended to encompass Figures 4A-D, and accordingly, these amendments do not constitute new matter.

Applicants submit that the specification, as amended, is now consistent with the drawings. Entry of the foregoing amendments and remarks into the file of the above-identified application is respectfully requested.

Respectfully submitted,
